## **DETAILED ACTION**

• This action is responsive to the following communication: an Appeal Brief filed on 2/16/05.

## Response to Arguments

• Applicant's arguments, see pages 12-13, filed on 2/16/05, with respect to claim 1 has been fully considered and are persuasive. The rejections of claim 1 has been withdrawn.

## Allowable Subject Matter

- Claims 1-10 are allowed.
- The following is an examiner's statement of reasons for allowance: The cited prior art of record (US 5628249) teaches an apparatus for producing mail pieces including parser (ref. #112, fig. 4) for parsing and extracting address data from the job data, wherein address data is routed to an envelope printer and document data is routed to a document printer, but fails to teach and/or suggest a document driver for determining whether or not print stream comprises text data, and (i) if said print stream comprises text data then tagging said text data and sending said tagged text data to a user mode module for further parsing; or (ii) if said print stream does not comprises text data then sending said print stream to a direct data injection step for a document printer; (i) retrieving said tagged text from said local buffer and determining whether or not an address is contained within said tagged text, and (i) if address is found in said tagged text, then placing said address in an envelope print format to create an envelope data set; and (ii) if an address is not found then sending said tagged text directly to said data injection; creating an envelope printer device context from the document driver and transmitting said envelope data set to an envelope printer driver for creating an envelope printer device language file, which can be found in independent claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
